### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### **Situation Overview**

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

### **Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 01/18/21 at 1100 hours:**

- 95,771,210 (+524,680) total confirmed cases in 219 countries and territories.
- 2,044,241 (+8,138) total deaths.

### **Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 01/17/21 at 1000 hours:**

- 23,653,919 (+213,145) total confirmed cases.
- 394,495 (+3,557) total deaths.

### **Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 01/18/21 at 1100 hours:**

- 2,973,174 (+30,699) total confirmed cases.

# WEATHER KEY POINTS

01/19/21 - 01/25/21

## Tuesday-Thursday

- A significant wind event is ongoing across the state
- The strongest winds are expected Tuesday morning as a strong cold front deepens the strong pressure gradient across the state
  - **Damaging winds with gusts of 70-80 mph or higher will continue across the Bay Area hills/mountains and northern Sierra and across the Central Sierra through Tuesday**
  - **Along the high Sierra, this wind event looks similar to previous events that caused widespread tree damage in the Tahoe area, with winds well in excess of 100 mph Tuesday morning**
  - Relative humidity will be low enough combined with the lack of recent rain to cause critical fire weather conditions
- A moderate to strong Santa Ana wind event is developing Tuesday morning across southern California and will continue through Wednesday morning, potentially causing wind damage and critical fire weather conditions for a significant portion of southwestern California
  - **The strongest winds will be Tuesday morning across Los Angeles and Ventura counties with damaging wind gusts 60 to 80 mph or possibly even higher (90+ mph) in some areas**
  - Relative humidity will be low enough combined with the lack of recent rain to cause critical fire weather conditions
- Winds will gradually diminish for northern California on Tuesday afternoon and for most of southern California early Wednesday
- Winds across San Diego and Orange County are expected to remain strong through Wednesday evening
- Cooler conditions with light precipitation are expected across southern California Tuesday onward, initially from San Diego to the Mojave Desert Tuesday, then more extensive into the Los Angeles metro area on Thursday

## Friday-Monday

- The chance of light rain and snow continues across southern California through the weekend
- Several weather system may move into the state on Friday and through early next week, potentially bringing some light snow to the Sierra
  - Confidence is low on the extent of precipitation, however the system does not look particularly impactful at this time until the Monday timeframe when more moisture moves into the state from the west
